Statement of intent

Quest International School recognises the importance of offering a broad and balanced curriculum which is underpinned by our shared school vision.

Our curriculum consists of activities designed to promote the intellectual, personal, social, physical and cultural development of pupils. It includes the formal programme of lessons, based on the national curriculum, and the informal programme of extracurricular activities that we organise to enrich pupils' experiences of their lives and education.

Through this policy, the school aims to:

- Put pupils at the centre of all curriculum decisions, putting their needs above those of the school.
- Have a curriculum that is fit for purpose, offering differentiation and personalisation.
- Prepare all pupils for the next stage of their education and for life in modern society.
- First achieve and then exceed national standards in achievement, attainment and progression.
- Be committed to excellence and continuous improvement.
- Provide courses which meet the needs of pupils.
- Nurture the talents of all and celebrate success.
- Work with feeder schools and colleges to ease transition.
- Involve the stakeholders, including parents, in curriculum development.

2. Curriculum aims and intent

What the curriculum is designed to do

The school's curriculum is designed with pupils' learning at the centre. The school recognises that the curriculum has to be broad, balanced, and offer pupils opportunities to grow as individuals as well as learners.

Through a combination of learning techniques, the school aims to ensure pupils enjoy learning and feel prepared for life after school. The school intends to offer pupils new and exciting

experiences through extracurricular activities that are designed to build resilience, confidence and self-esteem.

How the school intends to deliver the curriculum

Below, the school's curriculum intent is outlined to demonstrate how the curriculum will be delivered through a variety of methods, both classroom-based and extracurricular.

- **Classroom-based learning:** The school encourages teachers to make cross-curricular links where possible within their lesson plans and use different learning resources to teach core content. One-to-one teaching sessions are carried out for pupils who require additional support.
- **Extracurricular activities:** The school provides a variety of extracurricular activities for pupils that enhance their learning experience. The activities we offer can be found in the Extracurricular activities section of this policy.

A full list of subjects available to pupils in each year can be found in the Curriculum content section of this policy.

How the school involves stakeholders in curriculum planning and delivery

The school values the input of its pupils, parents and the local community with regard to the planning and delivery of the curriculum. The school believes that pupils receive a well-rounded education if everyone is involved in shaping it; this is why pupils and parents are sent questionnaires regularly.

The overall aims of the curriculum are to:

- Enable all pupils to be successful learners and achieve high standards.
- Enable pupils to understand the skills and attributes needed to be a successful learner.
- Enable pupils who are not achieving age-related expectations to narrow the gap and catch up with their peers.
- Enable pupils to develop and be able to use high-quality functional skills, including key literacy, numeracy and ICT skills.
- Enable pupils to develop their own personal interests and develop a positive attitude towards learning, so that they enjoy coming to school and acquire a solid basis for lifelong learning.

- Enable pupils to value their learning outside of the curriculum and relate this knowledge to the taught curriculum.
- Teach pupils to be able to discern right from wrong, that actions have consequences, and the value and importance of forgiveness.
- Enable pupils to be creative and to develop their own thinking.
- Help pupils to develop an independent approach to their learning.
- Teach pupils about their ever-changing world, including how the environment and society have changed over time.
- Help pupils understand the Iraqi Kurdistan values alongside British values and enable them to be positive citizens in society who can make a difference.
- Help pupils understand the importance of truth and fairness, to ensure they grow up committed to equal opportunities for all.
- Enable pupils to have respect for themselves and others, and to be able to live and work cooperatively with others.

Through the aims outlined above, pupils will benefit by:

- Learning how to lead safe, healthy and fulfilling lives.
- Understanding that failure is part of the road to success.
- Being rewarded for academic successes.
- Being supported with their next stages in education or training and feeling prepared for life after school.
- Becoming responsible individuals who contribute to community living and the environment.
- Achieving to the best of their ability.
- Acquiring a wealth of knowledge and experience.
- Becoming critical thinkers.
- Finding a sense of belonging to the school and its community.

- Learning how to cooperate with their peers and respect one another, inside and outside the classroom.

4. Organisation and planning

The school's curriculum will be delivered over 39 weeks or 190 days and equally throughout the school week. Each school day pupils will receive at least one break at meal times for breakfast and lunch.

In collaboration with subject leaders, teachers and other members of the SLT, the principal will devise the following plans:

- **Long-term plans** that deal with the major areas and strands of the national curriculum to be covered across all key stages.
- **Medium-term plans** that deal with the activities within units of work that are set out termly.
- **Short-term plans** that are concerned with individual lessons or sessions on a weekly basis and address issues of curriculum differentiation and access for individual pupils.

Where possible, teachers will look for links between areas of learning that will support one another and allow pupils to reinforce their skills from one subject within another. A full list of subjects covered in school can be found in the Curriculum content section of this policy.

Lessons will use a range of techniques to appeal to different learning types, e.g. visual, audio and kinaesthetic.

Teachers will plan lessons which are challenging for all pupils and ensure that there are provisions in place for more academically able pupils, e.g. completing additional work that is above the academic level of their peers.

Planning will be used to identify any possible difficulties within the curriculum and will break down barriers to learning. Any difficulties identified will be addressed once curriculum planning has commenced.

Pupils who are identified as needing additional support will receive it, e.g. those with SEND – this may include dedicated time with teaching assistants (TA's) and access to specialist resources and equipment where required. Where they are appointed, TAs will be deployed within lessons strategically so that they can assist with pupils who require additional help, but are also able to minimise disruptions where necessary.

Pupils with EAL will be given the opportunity to develop their English ability throughout lessons where necessary.

Classrooms will be organised so that pupils have full access to resources and equipment – they will be provided with a rich and varied learning environment.
